Dear Patient,

Effective June 30, 2019, Houston Adult Psychiatry is downsizing its nurse practitioner staff at Houston Adult Psychiatry; however, Dr. Frank Chen's practice at Houston Adult Psychiatry will continue to be available to serve you. This does not affect any patient who is currently part of Dr. Michael Barber's practice at Houston Adult Psychiatry.

You may book your future care needs with Dr. Frank Chen, Lenore Chen, APRN, or Connie Peters, APRN, all supervised by Dr. Chen or with Dr. Michael Barber, Brenda Schiavone, APRN or Gwen DeJean, APRN, who are supervised by Dr. Michael Barber. We welcome the opportunity at Houston Adult Psychiatry to continue to provide your patient care.

In addition to seeing patients at our Houston Adult Psychiatry office, I will continue to provide Inpatient Psychiatric Services at Houston Behavioral Healthcare Hospital, where I will be the Chief Medical Officer starting July 1, 2019. I will also continue to provide Guidance Sessions for families of patients struggling with Bipolar Disorder and Schizophrenia. These can be scheduled through the office.

Patients can continue to request available psychiatric and mental health services, emergent and non-emergent from Frank Chen M.D., P.A. at Houston Adult Psychiatry where I and my staff look forward to serving you. We apologize for any inconvenience you may have been caused if you received any misinformation from departing staff about the continuation of the practice and the continued availability of our services for you here at Houston Adult Psychiatry.

Sincerely,

Frank Chen, MD
